- \* A class in Afternoon Tea
- \* **And more classes being developed**

**For class details - phone or  
email us directly**

The Executive School of Protocol is pleased to introduce the **Institut International**, wherein personal social enrichment and lifestyle programs will be conducted. The **Institut International** will devote full attention to international social etiquette, decorum, elegance and social savoir-faire with a cosmopolitan view of the world, uniquely distinguished to enhance your life.

**Institut International** will provide the highest quality etiquette and lifestyle management programs based on a variety of premises from traditional Swiss finishing schools and the contemporary demands of modern society. Etiquette and 'good manners' are cultural and we are the only etiquette consultancy in Bermuda, internationally certified by both American and European institutions.

**Institut International** programs are designed for individuals over the age of 18. We do offer an introductory program for teens, who are between the ages of 13 and 18 years old. Students completing the introductory course are given preference for admission into appropriate full **Institut International** programs.

Dynamic, interactive sessions that polish social, dining and communication skills help individuals become more poised and polished in Bermuda, and around the world, taking your social success to the next level.
